Motorola Quality Levels

- **Unique Accelerated Life Test (ALT™)** simulates 5 years hard use for increased peace of mind
- **US MIL Spec 810C, D, E & F** tests durability of the system design
- International Protection Rating **IP54** protects against dust and water splashes

The **P100 Series** is supplied with the following as part of the standard configuration:

- **Radio**
- **Belt clip**
- **Battery**
- **Single unit charger**
- **Antenna**
- **User guide**

P100 Series radios are also supported by a wide range of Motorola Original Accessories including microphones, carry cases and straps, earpieces and headsets, batteries and chargers, all designed to tailor the radio to the precise requirements of the user.

These radios are **available to order** on Motorola On-line now. Click the links on the right to see more details including the **launch pack promo**. Contact your local Account Manager or Customer Care team if you have any questions.
